

9th International Conference of The Asian Clinical Oncology Society

Talk to the world wide from Asia
Multidisciplinary Treatment for Asian Cancer Patients

August 25-27, 2010 GIFU GRAND HOTEL

GIFU-City

President: **Shigetoyo Saji**
(Emeritus Professor of Gifu University)

Vice President: **Hisanobu Nakamura**
(Emeritus Professor of Osaka University)

President Emeritus: **Tetsuo Taguchi**
(Emeritus Professor of Osaka University)

ACOS President: **Yan SUN**
(China Cancer Hospital CAMS & PUMC)

Secretary General: **Kazuhiro Yoshida**
(Professor, Department of Surgical Oncology, Gifu University School of Medicine)

PROGRAM

S4.

August 26, Room 1, 9:30-12:00

The present status and the future perspectives of Inter Group Study in Asian countries

Chairmen: Hiroya TAKIUCHI, Yoon-Koo Kang (Korea)

Sponsored by DAIICHI SANKYO CO, LTD

Key Note Lecture: Future directions of clinical trials in Asia Atsushi OHTSU

- 1) S-1 and Taxotere for advanced gastric cancer randomized Phase III trial: JACCRO GC-03 (START) Hoon Kyo Kim (Korea)
- 2) Development of clinical trial to gastric cancer surgery Toshimasa TSUJINAKA
- 3) SOS study: S-1 optimal schedule 3 weekly vs. 5 weekly Yoon-Koo Kang (Korea)
- 4) The goal of Intergroup Study in Asia: West Japan Oncology Group (WJOG) Kazuhiko NAKAGAWA
- 5) Collaboration between data centers of Korean and Japan in the intergroup trial JCOG0705/KGCA01 Haruhiko FUKUDA

S5.

August 26 Room 3: 9:30-12:00

Breast cancer in Asian countries

Chairmen: Koichi HIRATA, Toshiaki SAEKI

Sponsored by CHUGAI PHARMACEUTICAL CO, LTD

- 1) Triple negative breast cancer in Korea- distinct biology with different impact of prognostic factors on survival Eun Sook Lee., (Korea)
- 2) The pathological features of breast carcinoma in Asian women Takuya MORIYA
- 3) Measuring quality of care for breast cancer in Japan and effecting practice improvement Hirofumi MUKAI
- 4) Breast cancer in Japan Yasuyo SUZUKI

S6.

August 26 Room 4: 9:30-12:00

Current topics in multimodal treatment for esophageal cancer

Chairmen: Yuko KITAGAWA, Hideaki SHIMADA

- 1) A randomized trial of postoperative adjuvant chemotherapy with cisplatin and 5-fluorouracil versus neoadjuvant chemotherapy for clinical stage II/III squamous cell carcinoma of the thoracic esophagus (JCOG9907) Hiroyasu IGAKI
- 2) Neoadjuvant therapy for esophageal cancer Hideo BABA
- 3) Current progress in chemoradiotherapy for esophageal cancer in Japan Ken KATO
- 4) Role of salvage surgery in esophageal cancer treatment Yasuyuki SETO
- 5) Prediction of response for neo-adjuvant chemo-radiation Yu-ichiro DOKI
- 6) Novel multimodal treatment for resectable esophageal cancer : introduction of JCOG0909 Hiroya TAKEUCHI
- 7) Trends in multimodal treatment for esophageal cancer in Asia Simon Law (Hong Kong)
- 8) Current topics of carbon-ion beam irradiation against esophageal cancer Hideaki SHIMADA

S7.

August 26 Room 6: 15:50-18:30

Chemo-radiotherapy: combination of advanced technology of radiation therapy and new drugs including molecular target agents

Chairmen: Yasumasa NISHIMURA, Yasushi NAGATA

Sponsored by Varian

- 1) Combined modality treatment of stage III NSCLC: Novel approaches using IMRT, proton and molecular targeting therapy Chang Joe Y (USA)
- 2) Chemo-radiotherapy for locally advanced NSCLC; Integration of EGFR-targeted agents Isamu OKAMOTO
- 3) Chemo-radiotherapy for locally advanced pancreatic cancer Satoaki NAKAMURA
- 4) Chemo-radiotherapy for head and neck cancer, Improving clinical benefits using IMRT and molecular target agent Takeshi KODAIRA

S8.

August 27 Room1: 13:30-16:30

Strategies and problems of Asian Traditional Medicine in cancer treatment

Chairmen: Masaki KITAJIMA, Leung Ping Chung (Hong Kong)

Commentator: Kenji WATANABE

Sponsored by TSUMURA & CO

- Key Note Lecture: kampo Medicine for cancer treatment in Japan Kenji WATANABE
- 1) Traditional medicine in China Jian Ping Liu (China)
 - 2) Research on cancer treatment using traditional medicine Leung Ping Chung (Hong Kong)
 - 3) Outcome evaluation to advanced cancers treated with aRVS (allergen removed rhus vemiciflua) Won Cheol Choi, (Korea)
 - 4) Juzentaihoto-induced inhibition of cancer metastasis -Establishment of molecular basis for Kampo medicine- Ikuo SAIKI
 - 5) Role of Kampo medicine in cancer treatment Mitsuo SHIMADA
 - 6) Clinical trial and EBM for Kampo medicine Masahiko WATANABE

S9.

August 27 Room 3: 8:30-10:50

Recent developments and future prospects of cancer treatments using the manner of Interventional Radiology

Chairmen: Jae-Hyung Park (Korea), Hironobu NAKAMURA

Sponsored by

- 1) Current trends in interventional radiological applications in oncologic practice in india Sanjiv Sharma (India)
- 2) Interventional oncology in China Renjie Yang (China)
- 3) Recent advancements and future prospects of interventional radiology for cancer treatment in Thailand Pongsuwan Pongdej (Thailand)
- 4) New interventional radiology techniques in the management of hepatocellular carcinoma: The SGH experience HoAu G Lo (Singapore)
- 5) Recent developments and future prospects of transarterial therapy for HCC Jae-HyungPark (Korea)
